

# COMFORT AND CONTROL FOR YOUR WINDOW OR PORCH

## With Maxi and Combi Retractable Window Awnings

Our beautiful retractable window drop arm awnings are a practical shading solution. They **bring style, distinction and elegance to any window** while maximizing your indoor comfort. They may also lower your energy costs. The awning is fully retractable. It can be lowered to any position to provide as little or as much shade as you need. You have complete control...

The awning in normal down position

The awning in full down position

By lowering the fabric all the way down, our awnings are great for both shading and privacy.

The Maxi and Combi are the ideal solution for keeping the sun's rays at bay and saving money on your air conditioning bills. Your room will be significantly cooler inside by blocking the sun before it enters your window. On cloudy days, you can retract the awning to take advantage of the natural light.

**Maxi:** The Maxi is available with standard hand crank or optional motor. Maximum width is 30 ft. and maximum projection is 5'8". A hood is optional.

**Combi:** The Combi is available with standard pull tape, optional hand crank or motor. Maximum width is 12 ft. and maximum projection is 3'4". The Combi has a self-storing cassette to protect the fabric when retracted.

### FRAME COLORS & MOTOR OPTIONS

CUSTOM COLORS ARE AVAILABLE

Standard Switch

Remote Control

Motorize your awning with a tubular motor from SOMFY. With the flick of a switch the window awning will extend and retract. Remote control is available. Add automatic sun and wind controls and the awning will extend and retract automatically with the elements.

All Sunair® awning models are sewn with Tenara® thread. This thread is made from Teflon which will not deteriorate from sun exposure.

### FABRIC COLORS

Choose an Acrylic stripe or solid fabric from our exclusive PARA Tempotest fabric collection.
